

SAFFRON AND CAVIAR INTERNATIONAL

saffron.caviar@gmail.com

www.abed-saffron.com

premium provider of fine foods in Qatar. We pride ourselves on supplying only the highest-grade food products to our customers, which are sourced from all the corners of the world and packaged & prepared within our own local manufacturing factory.

Our Vision

It is our aim to become the leading name where delicacies are concerned. Already established in Qatar, we intend to have our company held in such high-esteem on the international stage.

Core Values

We at Saffron & Caviar prize ourselves on customer satisfaction, both new and existing. Our products are, always have been and always will be of the absolute highest quality. Building relationships and having our customers come back time and time again is truly our greatest source of pride.

What We Offer

Saffron

Originally from the Persian Empire, saffron is a spice derived from the flower of the *Crocus Sativus* plant. Sargol literally translates as "top of the flower" and each flower bears three stigmas.

Our Iranian Sargol saffron is made up of these red stigmas which have been professionally cut and separated from the flower prior to drying, resulting in the highest quality saffron threads available on the market.

Caviar

Known colloquially as 'the Black Gold', caviar is a rare and precious delicacy obtained by extracting roe from the elusive Sturgeon fish. This is delicate and labor-intensive work as most Sturgeon fish are not harvested for their caviar until at least ten years of age.

We at Saffron & Caviar International specialize in three types of caviar; Beluga, Ossetra and Sevruga. All three are the rarest and most sought-after varieties, coming from the Caspian Sea of Iran and the Black Sea of Russia. In addition to this, we also provide caviar from exclusive farms in France and Spain.

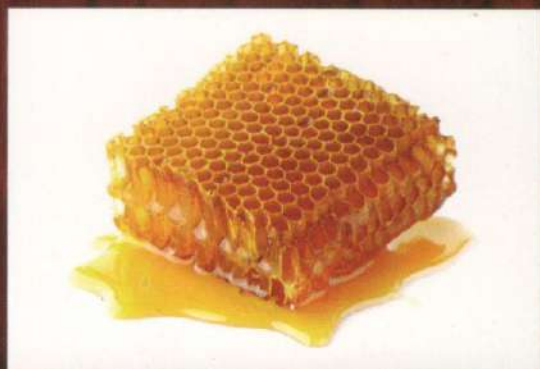

Honey

Raw, pure and natural wild honey from the mountains of Iran.

Honey has been known for its health benefits for millennia, and our product retains all of these sought-after benefits.

Weight management, antioxidant properties, sleep promotion and a natural source of energy, this viscous liquid has been used for thousands of years for these very reasons, and more.

Truffles

'The diamond of the kitchen'

Another of the world's most exclusive delicacies. Our White and Red Truffles are seasonal delights, guaranteed to add a touch of class and sophistication to any dish.
